Emergency Showers & Eyewashes

- Stainless steel construction for long service life in all environments
- Full compliance with A4775 and ANSI Z358.1 for emergency eyewash and shower equipment
- Models available to suit any application

Combination Shower Units

- The most versatile decontamination system available - use shower, eyewash or both simultaneously
- Balanced water supply inlets ensures optimum eye/face wash pattern even with varying water pressure
- Self - closing dust cover on Aerostream eye/face wash keeps airborne contaminants off nozzles

SHOWER WITH AEROSTREAM® WASH UNITS

Model No	Description
SE607	Eye/face wash with bowl, hand and foot operated
SE603	Eye/face wash with bowl, hand operated
SE612	Eye wash with bowl, hand and foot operated
SE616	Eye wash with bowl, hand operated
SE675	Eye wash, no bowl, hand operated
SE679	Eye wash, no bowl, hand and foot operated
SE685	Eye/face wash, no bowl, hand operated

SE685

SE607

SHOWER WITH SOFTSTREAM® WASH UNITS

Model No	Description
PEM607	Eye/face wash with bowl, hand and foot operated
PEM603	Eye/face wash with bowl, hand operated
PEM675	Eye/face wash, no bowl, hand operated

Safety Showers

Pratt's premier Safety Showers collection soothingly delivers a large volume of water in a precise water pattern ensuring whole body coverage.

Model No	Description
SE253	Free standing
SE253PO	Free standing, platform operated
SE227	Wall mounted
SE220	Ceiling mounted

PRATT
Excellent water pattern

COMPETITOR
Water not evenly dispersed

Wall Mounted and Free Standing Eyewashes

- Choice of three eyewash or eye/face wash nozzles to suit your application
- Robust eye/face wash nozzle made from thermoplastic resin for excellent weather resistance
- Foot pedal option available for all models

AEROSTREAM® EYEWASH

Dual design aerated eyewash for applications which pose a hazard to the eyes but not the face, such as dust, airborne particles and mild chemicals.

Model No	Description
SE546	With bowl, hand and foot operated
SE545	With bowl, hand operated
SE575	Wall mounted, no bowl, hand operated
SE515	Wall mounted with bowl, hand and foot operated
SE505	Wall mounted with bowl, hand operated

AEROSTREAM® EYE/FACE WASH

An advanced six-nozzle design that delivers a gentle cascade of aerated water to rinse away contaminants without further damaging delicate eye and skin tissue.

Model No	Description
SE475	Wall mounted, no bowl, hand operated
SE480	Free standing with bowl, hand and foot operated
SE420	Free standing with bowl, hand operated
SE400	Wall mounted with bowl, hand operated
SE415	Wall mounted with bowl, hand and foot operated

SE480

SE400

SOFTSTREAM® EYE/FACE WASH

A specially designed faceplate dispenses a continuous stream of non-aerated water to decontaminate injured eye and face tissue.

Model No	Description
PEM575	Wall mounted, no bowl, hand operated
PEM490	Wall mounted with bowl, hand operated
PEM492	Free standing with bowl, hand and foot operated
PEM491	Free standing with bowl, hand operated

Portable Units

With Pratt's Portable Units, you can have a safe workplace no matter where you are. These portable first aid water treatments are ideal for worksites without plumbing capabilities and are essential for fire and emergency teams, drivers carrying dangerous substances, and those working in remote places in mining, agriculture and construction.

GRAVITY FED PORTABLE EYEWASH

Model No	Description
SE4050	- Self contained unit provides 15 minutes of decontaminating water flow 53 litres capacity - Strong polyethylene construction - Retractable tray protects against airborne contaminants - Pinch valve ensures positive water flow within one second of activation - Bright green colour makes for easy identification - Meets ANSI Standard Z358.1 and AS4775 criteria for primary eyewash

SE4050 closed

SE4050 open

PORTABLE EYE AND BODY WASHES

Model No	Description
SE50P	9 litre capacity
SE590A	45 litre capacity, with dual nozzle eyewash and drench hose
	- Soft aerated water - Compressed air is supplied via tyre-style valve - Meets AS4775 and ANSI Z358.1 for supplemental equipment

SE50P

SE590A

WATER ADDITIVE

Model No	Description
SE4764	- Add to eyewash to protect against bacteria, fungus, algae, other micro-organisms - One bottle preserves between 23-75 litres of portable water for up to four months - One complimentary bottle is supplied with each SE4050 eyewash

SE4764

TEST KIT FOR SHOWERS AND EYEWASHES

- Comply with AS4775 inspection & testing requirements for showers, eyewashes & eye/face washes
- Models available for weekly water test only, or including annual inspection of water pattern and flow rate
- Model SETESTKIT includes mobile bin for disposal of test water, and storage of components

Model No	Description
SE950	Test sock with handle and receptacle for weekly water test
SETESTKIT	Full test kit with bin for annual inspection & weekly water test

SETESTKIT

SE950

Multi-Spray Units

In the case of contamination with burning materials, acid or caustic liquid, or toxic and radioactive particles, Pratt Multi-Spray Units provide fast first aid treatment. These life saving units are fitted with 16 spray shower heads and are constructed of high quality stainless steel.

Model No	Description
SE670PO	Dual platform with eye/face wash, 3 panels, platform operated
SE670	Dual platform with eye/face wash, 3 panels, hand operated
GSE670PO	Dual platform with eye/face wash, 3 panels, audible and visual alarm systems, platform operated
SE663PO	Single platform with eye/face wash, 2 panels, platform operated
SE663	Single platform with eye/face wash, 2 panels, hand operated
SE340	Single platform multi-spray shower, 2 panels, hand operated
SE340PO	Single platform multi-spray shower, 2 panels, platform operated

SE663PO

GSE670PO

Laboratory Units

Even when working with small doses of dangerous substances, a spill or splash could still cause a serious injury. Pratt's Laboratory Units provide swift and effect decontamination.

Model No	Description
SE920	Hand held aerated drench hose with hose hanger
SE921	Aerated drench hose with bench mounting bracket

SE920

SE921

Self-Contained Safety Showers

- Comply with AS4775 for safety shower and eyewash in remote locations
- Full 15 minutes decontamination time at effective, compliant flow rates
- Models available for medium term or easily relocatable applications

Gravshower
